DISCLAIMER

The OptiGROK project and its entire ecosystem encompassing the token, website, brand, smart contract and associated intellectual property should not be regarded as a payment service. This document is designed solely for educational purposes related to the OptiGROK project and should not be construed as financial advice of any nature. The whitepaper does not hold the status of a legal document nor does it serve as a solicitation or invitation for investment. Furthermore, it does not guarantee returns on any investments made in the token. Please bear in mind that the information contained in this whitepaper may change as the project develops. We recommend staying updated via our social media channels to ensure you have the latest information on OptiGROK.

It is essential to emphasize that no legal claims are asserted within this whitepaper or on our website. OptiGROK is a decentralized initiative that relies on community input and feedback. It lacks shareholders, board members, or stakeholders.

OptiGROK is a utility token that plays essential roles within the OptiGROK ecosystem and without it the ecosystem would be unable to function. Given the inherent volatility and emerging nature of cryptocurrency technology, individuals involved in the OptiGROK project recognize the substantial risk associated with investing in cryptocurrencies and participating in blockchain-based projects. OptiGROK holds no liability for any losses or damages sustained by users who choose to engage with the project. OptiGROK is not affiliated with Tesla or any related products or services. Users engage with our website, applications and interact with the \$OptiGROK token entirely at their own risk.

About the project

In Q4 2023 OptiGROK came into existence with the aim of introducing a fresh era of next generation meme coins.

Recognizing the absence of innovation and practicality within the cryptocurrency landscape we were convinced that people deserved better. That's why we initiated OptiGROK—a project driven by the community and a strong team of developers.

Decentralized in nature and designed for amusement and enriched with Web3 powered functionalities. This approach positions our project for success in a manner that surpasses the aspirations of earlier meme coin endeavors.

Low buy & sell tax

By implementing a 7.5% buy tax and a 7.5% sell tax we aim to simplify the process of trading \$OptiGROK. Our primary goal is to foster a vibrant project where our community can seamlessly utilize the token without encountering any obstacles or undisclosed expenses.

MEME | NFT & Games

Stay tuned for exciting releases of our exclusive collection of NFTs and games.

New worlds, new heroes & new bad guys. Play to earn games like never before. It's going to be epic.

Mission and Core Beliefs

We firmly believe that interactive games, NFTs and crypto payments are a natural synergy and this belief is further amplified by the current landscape of interactive games and Web3 technology. With the rise of Web3, blockchain and decentralized technologies we are witnessing an exhilarating new era in the gaming industry.

The integration of NFTs into interactive games offers players real ownership of in-game items and characters enabling them to build value within and beyond the game. This fosters deeper community engagement and unlocks novel ways to play, earn and trade.

Crypto payments and blockchain technologies enable fast, secure and borderless transactions simplifying access to games and in-game purchases on a global scale. This opens the doors to a worldwide market for developers and players creating opportunities for greater inclusivity and innovation.

In this evolving landscape we are committed to delivering what people desire: Play-to-earn games that are beloved by players and supported by NFTs and rewards. We are thrilled about the possibilities Web3 presents and aim to engage our community in this exciting journey towards the future of gaming and financial technology.

\$OPTIGROK Tokenomics

\$OptiGROK is an ERC20 token and launched on the BNB blockchain in December 2023.

This token serves as a fundamental component within the broader OptiGROK ecosystem empowering various aspects such as rewards, marketing initiatives and other vital functions for the project.

In our commitment to ensuring complete transparency you can monitor the token supply wallet through our website.

After completion of the presale the tokens will be freely available through at least the following channels:

Keep an eye on the website and social channels for the latest news and announcements. www.optigrok.com

777.000.000.000.000

total supply

35% presale reservation

launching on pinksale

40% used for liquidity

to keep the ecosystem healthy

10% CEX & promotions

fast tracking the charts

15% will be burned

Roadmap

Phase 1

- ✓ Presale & launch
- DEX listings
- 1000+ holders
- Discord community

Phase 2

- CEX listings
- Community rewards
- 10.000+ holders
- Strategic partnerships

Phase 3

- Newsletter
- Merch
- 100.000+ holders
- NFT collection

Phase 4

- Game launches
- Tier 1 exchange listings
- 1.000.000 holders
- Still on board ? Sit back & relax..

Ecosystem - what to expect

In a world where technology is rapidly evolving, branches are emerging between good and evil AI. The futuristic character called OptieGROK is a mix between the further developed Optimus bot from Tesla and GROK Ai. In our stories we paint a picture of enemies, friends, sidekicks, new galaxies, undiscovered technologies and of course a wide range of vehicles & advanced weapon systems.
